

Energy Cost Reduction

With COVID-19, healthcare leaders are seeking strategies to reduce energy costs and mitigate against a barrage of utility rate increases.

Ecom-Energy can help you get 11%+ savings!

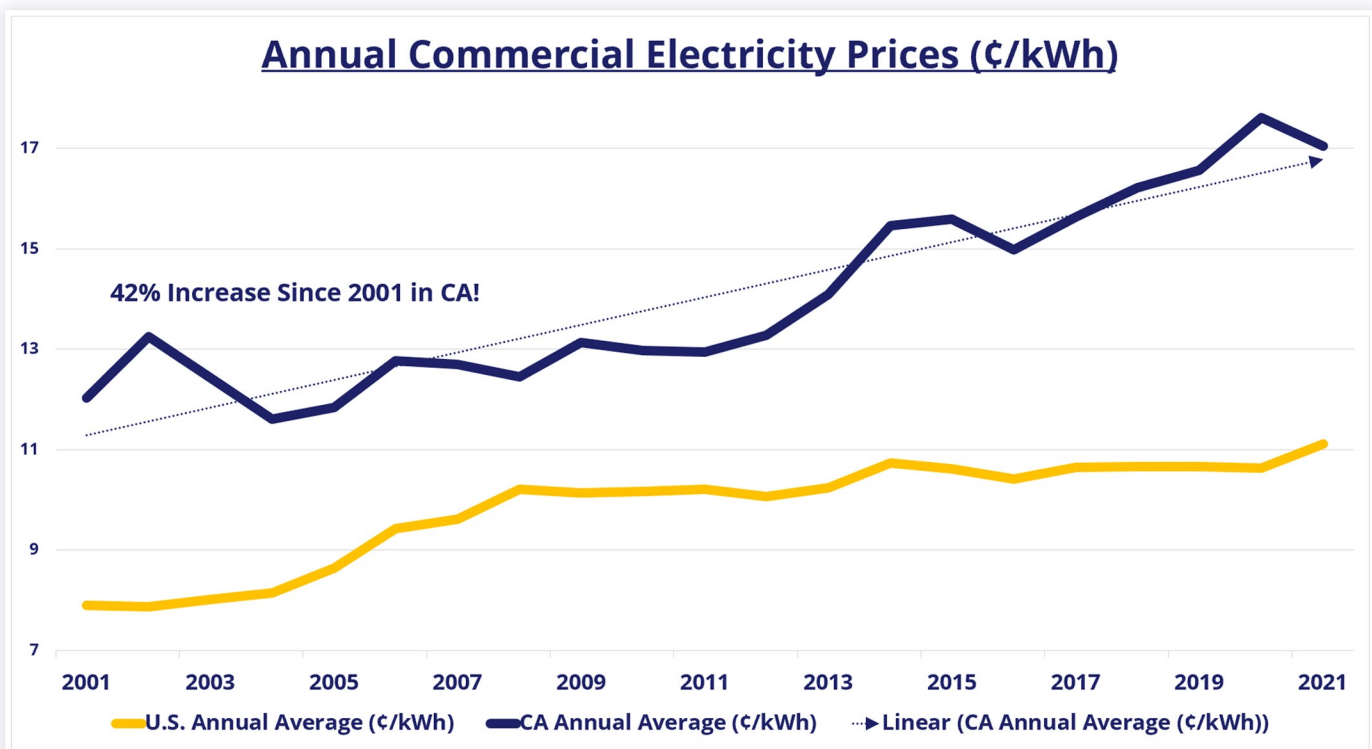

Ecom-Energy specializes in **objective energy consulting** to find solutions for healthcare's rising energy issues.

- Utility costs are increasing consistently - see graph below.
- Grid instability is increasing through wildfires, heatwaves, utility hacks, etc.

Ecom-Energy is:

- Part of a large team that developed an OSHPD white paper on microgrids.
- Technology agnostic; we find truly best-fit onsite generation solutions.
- An expert in creative financing options so large capital outlay isn't necessary.

Let's schedule a 10 minute call to talk about your needs and how we can help!
